The popular supplement as a protection from insects and to support the vitality

Ideally suited:

- ✓ *As a supplement with garlic to support the entire vitality and as a natural insect repellent from the inside*

Garlic is popular across all continents and has always been used as a natural remedy against insects. It is also said that garlic has a supportive effect on the airway, digestion and immune system and a cleansing effect on blood.

Garlic contains a high amount of sulphur that evaporates through the skin and which acts as a deterrent for insects.

The feeding of garlic can have several positive effects on the vitality and can provide a natural protection from insects.

In Knobi-Plus we have combined garlic with brewer's yeast and B-vitamins to increase the natural effect of garlic.

Carefully processed to create a tasty pellet. Knobi-Plus delivers all advantages of this proven natural remedy into the horse's crib.

Feeding recommendations:

We recommend feeding up to 50 g daily
