

LEXA[®] Horse Feed

for the
love
of horses

Sport-Mineral

Special features of Sport-Mineral:

- ✓ With metabolism-active marine algae and magnesium fumarate for an optimal bio-availability of the minerals
- ✓ Especially adapted to sport horses rations which are high in grains
- ✓ Contains organically bound zinc, manganese and copper
- ✓ With Vitamin E and selenium for a supple muscular system
- ✓ Doping-free

Special mineral feed for rations which are high in grains. Ensures optimal motivation, rideability and suppleness

Ideally suited:

- ✓ Sport horses with rations high in grains (above 3kg per day)

Sport horses require highly available energy for an optimal performance. Therefore the amount of grains in the ration is high and requires an appropriate addition of minerals.

Due to the wide ratio of Ca:P of 4,8:1 it is ideally suited for horses with rations high in grains (from about 3 kg grains a day).

Bio-active marine algae in combination with magnesium fumarate ensure an optimal supply of calcium and magnesium which has a supportive effect on supple muscles.

Vitamin E, C and selenium serve as a natural cell protectant and can protect the muscle fibres and therefore promote the rideability and suppleness of the horse.

Feeding recommendations:

Daily 20 g per 100 kg body weight

Large horses: 90 to 150 g per day

Small horses and ponys: 40 to 80 g per day

Garantierte
Qualität!

Sport-Mineral

Composition

Wheat bran, calcium carbonate, calcareous marine algae, mono calcium phosphate, sugar beet molasses, sodium chloride, dried sugar beet, maize gluten, magnesium oxide, linseed expeller meal, wheat germ, rapeseed oil, linseed oil, magnesium fumarate

Analytical components

Calcium	12 %
Phosphorus	2,5 %
Magnesium	2,5 %

Sodium	3,0 %
Potassium	0,7 %

Additives per kg

Vitamin A	400.000 I.E.
Vitamin D3	40.000 I.E.
Vitamin E as alpha-tocopherol-acetate	5.000 mg
Vitamin C as L(+)-ascorbic acid – pure substance	3.000 mg
Vitamin B1 as thiamine mononitrate – pure substance	300 mg
Vitamin B2 as riboflavin – pure substance	150 mg
Vitamin B6 as pyridoxine-hydrochloride – pure	150 mg
Vitamin B12	1.200 µg
Nicotinic acid as nicotinamide – pure substance	880 mg
Pantothenic acid as Ca-D-pantothenate – pure substance	600 mg
Folic acid as folic acid – pure substance	100 mg
Biotin as biotin-preparation	10.000 µg
Choline chloride as choline chloride – pure substance	1.500 mg
Betaine as betain-preparation	1.000 mg
Iron as iron-(II)-sulphate, mono hydrate	1.820 mg
Manganese as manganese oxide	1.350 mg
Manganese as glycine manganese chelate, hydrate	750 mg
Zinc as zinc oxide	3.040 mg
Zinc as glycine zinc chelate, hydrate	1.500 mg
Zinc as zinc sulphate, mono-hydrate	500 mg
Copper als copper-(II)-sulphate, penta-hydrate	760 mg
Copper as glycine copper chelate, hydrate	300 mg

Iodine as calcium iodate	17 mg
Selenium as sodium selenite	12 mg
Cobalt as coated cobalt-(II)-carbonate-granulate	11 mg

Garantierte
Qualität!
