

LEXA[®] Horse Feed

for the
love
of horses

Strukturmix Getreidefrei (Grain-Free)

Special features of Strukturmix Getreidefrei:

- ✓ With high-structured Lucerne to promote the chewing intensity and to support the intestinal tract
- ✓ The sugar and starch content is about 10%
- ✓ Linseed expeller, sunflower expeller, lucerne and brewer's yeast add highly available protein to support the entire muscular system and metabolism
- ✓ With a high content of carrot cubes and beet root
- ✓ Black cumin, linseed, linseed oil and rape oil supply high quality essential fatty acids for skin, coat and metabolism
- ✓ With a high amount of valuable herbs
- ✓ Without added minerals, vitamins and trace elements for an optimal dosage according to the individual energy need of each horse

High-structured, grain-free muesli for horses with sensitive metabolisms. Ideally suited for horses with grain intolerances and for horses prone to gain weight. Without added minerals, vitamins and trace elements so it can be combined with mineral feed.

Ideally suited:

- ✓ For horses with sensitive metabolisms or a grain intolerance
- ✓ High quality replacement for concentrate feed for light-feed horses

More and more frequently horses develop a grain intolerance that can exhibit several symptoms. Strukturmix Getreidefrei was developed especially for the dietary needs of horses with grain intolerances. Therefore this muesli which is low in sugar in starch is also completely grain-free. A moderate energy supply is won through lucerne (with a high amount of vital substances), sunflower expeller from hulled grains and linseed expeller. This specific recipe extinguishes itself through a high amount of essential amino acids which have a positive effect on the vitality and muscle metabolism. The high amount of structured Lucerne promotes the chewing intensity and supports the entire gastrointestinal tract. Mucilaginous flax and brewer's yeast can also support the entire digestion and lead to a shiny coat. Natural vital substances such as carrot cubes and beet root supply the ration with natural nutrients without burdening the horse. High-quality black

cumin and linseed oil complete this recipe with essential fatty acids and strengthen the entire metabolism, digestion, skin and coat. An especially adapted addition of herbs and kieselguhr rounds off this recipe of Strukturmix Getreidefrei. Additionally bentonite can help to bind and eliminate toxins and heavy metals. Strukturmix Getreidefrei has no added minerals, vitamins or trace elements and is ideally suitable as a combination with our range of LEXA mineral feeds.

Feeding recommendations:

Can be used as a sole concentrate feed when necessary.

Dosage recommendation: Large horses up to 1kg per day. Ponies and small horses up to 700g per day.
