

LEXA[®] Horse Feed

for the
love
of horses

Vitalmix Leisure

Special features of Vitalmix Leisure:

- ✓ Moderate amounts of energy and protein
- ✓ Tasty and free of oats
- ✓ Moderate use of molasses to relieve the metabolism and digestion
- ✓ With sea weed
- ✓ With a well-balanced supply of minerals, vitamins and trace elements

Vitalmix Leisure is an oat-free and well-balanced wholesome muesli for leisure horses with a moderate training intensity

Ideally suited:

- ✓ Leisure horses
- ✓ Horses with a moderate training intensity

Vitalmix Leisure contains the high-quality hydrothermally treated barley- and maize flakes which are produced in food-quality.

These pure flakes (20% maize and 29% barley) are complemented with a wholesome pellet to ensure the leisure horse's moderate need for energy and high-quality protein.

In these pellets a specific amount of Lucerne and dried sugar beet molasses ensures an even release of energy and supports the sensitive digestive system with minerals that have a stabilising effect on the pH-level and digestive pectin.

In Vitalmix Leisure molasses is only contained in the pellet and therefore relieves the metabolism and the horse's digestive system. High quality vegetable oils and sea weed ensure a shiny coat.

Vitalmix Leisure contains a well-balanced

amount of minerals, vitamins and trace elements and covers the need for these from the amount of 500 g per 100 kg body weight.

Therefore Vitalmix Leisure is ideally suited for leisure horses with a moderate training intensity and also for leisure horses used in sport. When needed Vitalmix Leisure can be combined with oats.

Feeding recommendations:

Depending on training intensity 300 – 600 g per 100kg body weight and day

Garantierte
Qualität!

LEXA® Horse Feed

for the love of horses

Vitalmix Leisure

Composition

Barley flakes (hydrothermally treated and ground), Maize flakes (hydrothermally treated and ground), Lucerne meal, dried molasses, wheat bran, linseed expeller meal, sugar beet molasses, sodium chloride, brewer's yeast, rapeseed oil, mono calcium phosphate, calcium carbonate, calcareous marine algae, magnesium oxide, sea weed meal

Analytical components

Crude protein	11,9 %	Potassium	1,1 %
Crude oil and fat	4,2 %	Lysine	0,5 %
Crude fibre	8,5 %	Methionine	0,1 %
Crude ash	9,1 %	Threonine	0,3 %
Calcium	1,2 %	Cysteine	0,1 %
Phosphorus	0,7 %	Energy (ME)	10,2 MJ/kg
Magnesium	0,3 %	Digestible protein	8,9 %
Sodium	0,7 %		

Additives per kg

Vitamin A	25.000 I.E.
Vitamin D3	2.000 I.E.
Vitamin E as alpha-tocopherol-acetate	250 mg
Vitamin C as L(+)-ascorbic acid – pure substance	50 mg
Vitamin B1 as thiamine mononitrate – pure substance	17 mg
Vitamin B2 as riboflavin – pure substance	41 mg
Vitamin B6 as pyridoxine-hydrochloride – pure	16 mg
Vitamin B12	300 µg
Nicotinic acid as nicotinamide – pure substance	126 mg
Pantothenic acid as Ca-D-pantothenate – pure substance	52 mg
Folic acid as folic acid – pure substance	4 mg
Biotin as biotin-preparation	375 µg
Choline chloride as choline chloride – pure substance	353 mg
Betaine as betain-preparation	38 mg
Iron as iron-(II)-sulphate, mono hydrate	58 mg
Manganese as manganese oxide	61 mg
Zinc as zinc oxide	230 mg
Copper as copper-(II)-sulphate, penta-hydrate	43 mg
Iodine as calcium iodate	0,7 mg
Selenium as sodium selenite	0,4 mg
Cobalt as coated cobalt-(II)-carbonate-granulate	0,4 mg

Ideally suited:

- ✓ Leisure horses
- ✓ Horses with a moderate training intensity

Garantierte Qualität!
