

LEXA[®] Horse Feed

for the
love
of horses

Wintermix

Special features of Wintermix:

- ✓ With components of structure
- ✓ With Echinacea, peppermint and 7 further herbs to support the immune system
- ✓ With linseed, brewer's yeast and kieselguhr
- ✓ Adapted to the needs of vitamin A, D and E during winter

Wintermix is a wheat-free full structure-muesli to complement the feeding during winter

Ideally suited:

- ✓ *For horses in maintenance metabolism or during the winter-months with a light work-load*

The special combination of this structure muesli is specifically designed for feeding horses with no or a low work-load during winter. Hydrothermal barley- and maize flakes are enriched with lucerne to provide a high-quality protein supply and to support the digestion. Due to the amount of structure the chewing activity and therefore the production of saliva is increased.

Additionally bentonites can help to bind and eliminate toxins and heavy metals. To support the body's own defence system Wintermix contains Echinacea, peppermint and 7 further herbs. Linseed and brewer's yeast support the digestion through pure natural substances. The recipe is adapted to the winter season through an appropriate supply of vital vitamins, minerals and trace elements. With linseed oil and rapeseed oil for a nice and shiny coat.

Therefore Wintermix is ideally suited to supplement the concentrate ration during the winter season and can be individually adapted according to the feed conversion rate and work-load of the horse. When the daily rations of feed are low the Wintermix can ideally be combined with our mineral feed Winter-Mineral-Cobs. This ensures the intake of all vital minerals, vitamins and trace elements.

Feeding recommendations:

According to the work-load and the meadow-season up to 600 g per 100 kg body weight daily

LEXA[®] Horse Feed

for the love of horses

Wintermix

Composition

Barley flakes (hydrothermally treated and ground), maize flakes (hydrothermally treated and ground), Lucerne meal, apple pomace, wheat bran, dried molasses, cut Lucerne, sugar beet molasses, sodium chloride, linseeds, maize, rapeseed oil, brewer's yeast, mono calcium phosphate, calcareous marine algae, calcium carbonate, see weed meal, linseed oil, comfrey leaves, horehound weed, peppermint, Icelandic moss, coltsfoot leaves, marshmallow root, cowslip, aniseed, lime blossom, Echinacea

Analytical components

| | | | |
|-------------------|--------|--------------------|------------|
| Crude protein | 10,6 % | Potassium | 1,1 % |
| Crude oil and fat | 4,1 % | Lysine | 0,4 % |
| Crude fibre | 9,2 % | Methionine | 0,1 % |
| Crude ash | 7,8 % | Threonine | 0,2 % |
| Calcium | 0,8 % | Energy (ME) | 10,2 MJ/kg |
| Phosphorus | 0,5 % | Digestible protein | 7,9 % |
| Magnesium | 0,2 % | | |
| Sodium | 0,7 % | | |

Additives per kg

| | | | |
|--|--------------|--|-----------------|
| Vitamin A | 15.000 I.E. | Iodine as calcium iodate | 1 mg |
| Vitamin D3 | 1.200 I.E. | Selenium as sodium selenite | 0,4 mg |
| Vitamin E as alpha-tocopherol-acetate | 150 mg | Cobalt as coated cobalt-(II)-carbonate-granulate | 0,4 mg |
| Vitamin C as L(+)-ascorbic acid – pure substance | 30 mg | Kieselguhr | 2.700 mg |
| Vitamin B1 as thiamine mononitrate – pure substance | 10 mg | Bentonit | 3.000 mg |
| Vitamin B2 as riboflavin – pure substance | 24 mg | | |
| Vitamin B6 as pyridoxine-hydrochloride – pure | 9 mg | | |
| Vitamin B12 | 181 µg | | |
| Nicotinic acid as nicotinamide – pure substance | 74 mg | | |
| Pantothenic acid as Ca-D-pantothenate – pure substance | 31 mg | | |
| Folic acid as folic acid – pure substance | 3 mg | | |
| Biotin as biotin-preparation | 300 µg | | |
| Choline chloride as choline chloride – pure substance | 284 mg | | |
| Betaine as betain-preparation | 30 mg | | |
| Iron as iron-(II)-sulphate, mono hydrate | 45 mg | | |
| Manganese as manganese oxide | 36 mg | | |
| Manganese as glycine manganese chelate, hydrate | 18 mg | | |
| Zinc as zinc oxide | 137 mg | | |
| Zinc as glycine zinc chelate, hydrate | 36 mg | | |
| Zinc as zinc sulphate, mono hydrate | 12 mg | | |
| Copper als copper-(II)-sulphate, penta-hydrate | 30 mg | | |
| Copper as glycine copper chelate, hydrate | 7 mg | | |
